SKILLS

- **Languages:** C, C++, Java, Python, HTML, CSS, JavaScript, TypeScript, PHP
- **Frameworks:** Node.js, React.js, Next.js, Express.js, Tailwind CSS, Bootstrap, Socket.io
- **Tools/Platforms:** Git, GitHub, VS Code, Figma, Cursor, GitHub-Action, Jenkins
- **Database & Services:** PostgreSQL, MySQL, MongoDB, Prisma/Orms, CI/CD, Docker, Postman, AWS
- **Relative Coursework:** Data Structure and Algorithms, Object Oriented Programming, DBMS, CN, OS
- **Soft Skills:** Problem-Solving, Critical Thinking, Leadership, Time Management

PROJECTS

PingTrack - Real Time Event Monitoring Platform Github | Live — Jan 2026

- Engineered a high-availability monitoring system using **Next.js** and **TypeScript** to track service uptime, processing real-time HTTP pings and latency data with instant status updates.
- Integrated **Stripe** API for subscription-based feature access, automating the entire billing lifecycle and incident notification subscriptions for scalable alert management.
- Fortified backend services with **API-key authorization** and request validation via **Zod**, while optimizing **PostgreSQL** queries through Prisma ORM to improve data retrieval reliability by 25%.
- **Tech Stack:** Next.js, Tailwind CSS, TypeScript, Prisma, PostgreSQL, ShadCN, Vercel, Stripe

Biterush - Food Ordering Website Github | Live — May 2025

- Orchestrated an end-to-end food ordering pipeline—from product discovery to secure checkout—synchronizing cart states and pricing logic in real-time to reduce checkout-related inconsistencies by 28%.
- Developed a secure payment gateway integration using **Razorpay**, implementing server-side webhook verification and atomic **MongoDB** transactions to ensure 100% financial data integrity.
- Leveraged **Redux Toolkit** for centralized state management, significantly reducing component re-renders and improving the overall user interface responsiveness on the **Web Platform.**
- **Tech Stack :** React.js, Node.js, MongoDB, Express, TailwindCSS, API Development, Web Platform

NoteApp - Full Stack Note Taking Application Github | Live — Mar 2025

- Provisioned full **CRUD** capabilities for note management, securing private user data through **JWT-based authentication** and granular authorization protocols to prevent unauthorized access.
- Architected a keyword-driven search and category filtering system using **MongoDB Atlas Search**, reducing document lookup time by 40% for users managing large datasets.
- Standardized API responses and error handling, improving frontend integration efficiency for CRUD operations.
- **Tech Stack :** React.js, Node.js, Express, MongoDB, JWT,Vercel

TRAINING

CipherSchool - Education Company | Training Experience *Certificate* — Jun 2025 - Jul 2025

- Completed an intensive immersion in full-stack engineering, mastering the development of **RESTful APIs**, database normalization, and complex client-server communication protocols.
- Gained hands-on experience in server-side logic using Node.js and Express.js, focusing on building scalable middleware and integrating **MySQL** for robust relational data management.
- Applied industry-standard development lifecycles (SDLC) by implementing rigorous **API testing** via Postman, systematic **debugging** strategies, and collaborative version control using **Git/GitHub**.
- **Tech Stack :** ReactJS, NodeJS, MySQL, ExpressJS, API Development, Web Platform

CERTIFICATES

- The Bits and Bytes of Computer Networking | Google *Certificate* — Sep 2024
- Software Engineering: Implementation and Testing - The Hongkong university of science and technology *Certificate* — Jul 2024
- Master Generative AI & Generative AI tools | Infosys Springboard *Certificate* — Apr 2024

ACHIEVEMENTS

- Placed in the top 10% at the Code-a-Haunt hackathon by leading a team through problem breakdown and solution execution.
- Solved 200+ DSA problems across LeetCode, Codeforces, GeeksforGeeks, and Code360.
- Earned a 3★ rating on CodeChef and Specialist rank on Codeforces through consistent competitive programming performance.

EDUCATION

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering**; CGPA: 7.30** — Since Aug 2023
- **Sanskar vidya Daudnagar** — Aurangabad, Bihar
  Intermediate**; Percentage: 65%** — Mar 2023
- **DAV Public School** — Aurangabad, Bihar
  Matriculation**; Percentage: 85%** — Mar 2021
